

B.E.S.T System Script

The B.E.S.T for EVERY Lead Type

The B.E.S.T. Script is your multi-use tool for every lead type. Only slight adjustments are needed to effectively adapt this script to any lead. **(Mortgage Protection, General Life, etc.)**

Be Busy:

Pick up the phone! This is a simple numbers game. The more dials you make, the more appointments you set and the more families you help. Most successful full-time agents make 500+ dials per week, or they dial until they have 20+ appointments to submit \$5,000+ APV weekly.

Establish the Reason You're Calling

Remember, you're calling because the client sent in a request asking for your help! Now it's your turn to help your client obtain the coverage they deserve.

"Hey, *(client's first name)*."

[Wait for response.]

"Hey, this is *(your name)*. I'm calling about your mortgage over at *(address)*. Looks like it's for *(loan amount)*."

[Pause and wait.]

"I was getting back to you about the form that you responded to regarding the mortgage protection coverage that would help pay the mortgage for your family if something were to happen. I just needed to quickly verify the information you provided so we can get those options worked up for you. You had put down that you're *(age)*. Is that correct? And when do you turn *(next age)*? When's your birthday? And I have your spouse's age and date of birth as _____?"

[Start filling out the client qualification form.]

"I have a couple of quick questions so I can make sure I'm looking at the right companies for you.

1. How's your health? Any medical issues?
2. Have you used any nicotine or tobacco in the last 12 months? You don't plan on starting this weekend, do you? **[Get a laugh and put them at ease.]**
3. What medications does your doctor have you on?
4. Any hospital stays, ambulance rides or major surgeries for you in the past 10 years or so?
5. And how about *(client's spouse's name)*? Anything for them?
6. Is there any history of things like high blood pressure, diabetes, cancer or heart attack for either of you?

Power Phrases for the phone

- "That's exactly why I am calling."
- "Here's what we're going to do."
- "Let's do this..."
- "I can try to squeeze you in at (time)."
- "Grab a pen and let me know when you are ready." vs. "Can you grab a pen?"
- "Can you just email/call me back later?"
- "That's a great idea! I'll be super brief. Let me verify your information quickly, then I will get your options out to you."

[TIP: We NEVER email options. The goal of the initial call is to book an appointment, then share their options during the live appointment]

7. And then, just ballpark, what's your height and weight? And your spouse?
8. What do you do for work? Anything dangerous, like a stunt man/rodeo clown? **[Get a laugh.]**
9. And then what does your work schedule typically look like? 9-5 Monday through Friday? What about your spouse?
10. **[Mortgage Protection]** It says the amount of the mortgage to be paid off is \$_____. Is that correct?
11. And did you guys go with a 15 or a 30-year loan?
12. And what's the monthly payment on that?
13. Alright, perfect. And most importantly, when you responded to the form, what was the main concern for you? What specifically were you wanting the coverage to do for you?
14. Were you looking for coverage on just yourself, or for both you and your spouse?"

Set Appointment

"Okay, that makes a lot of sense. I have enough information to start shopping your case across all the carriers. I'll need some time to do that, and then we'll just need to schedule a quick call to go over the options together and see what might make sense for you and answer any questions you might have. Let me just pull up my calendar."

"We've had a ton of these requests come in so my schedule is pretty crazy right now." **[Begin funnel approach: two days, two timeframes, two times.]**

[Two days.] "I have a couple of openings either today or tomorrow. Which of those would work best?" **[Book within 48 hours.]**

[Two timeframes.] "Okay. For tomorrow, would earlier or later in the day work better? **[Afternoon or evening? Before 5 pm or after 5 pm? Etc.]**

(Two times.) "Okay. I have an opening at 5:15 pm or I can squeeze you in at 6:45 pm. Which of those would be better for both you and *(client's spouse's name)*?"

Tie Down

"Okay, and you're positive that time works for both you and *(client's spouse's name)* together, correct?" **[No one-legged appointments. Find a time when both are available.]**

"Okay grab a pen and paper and let me know when you're ready. I'm going to give you my information and a few things to have ready for our appointment."

"Go ahead and write down my name. It's *(your name)*. Then write down "Mortgage Protection." And what time did we say again? Perfect. Go ahead and write that down as well. And just a couple things to have ready before our call. Make sure you have your doctor's info and have any medications that you're on, just have those available."

"And what's a good email for me to send the appointment confirmation to?"

"Okay, I have us down for *(day)* at *(time)*. Sometimes the families that I am working with need a little extra time, so give me about a 15-minute window, just in case, and I'll make sure I give you the time you need as well. If I am running more than 15 minutes behind, I'll make sure I let you know."

"Have a great day and we'll talk to you on *(day)* at *(time)*"
